HELPS FRAME GERMANY'S ANSWER

Chancellor von Bethmann-Hollweg.

Von Bethmann-Hollweg, chancellor of the German empire, is taking an important part in the preparation of Germany's answer to President Wilson's note of last week. Von Bethmann-Hollweg is the man who referred to the treaty guaranteeing Belgium's neutrality as a "scrap of paper."

Hayden Happenings

Wm. La Page, who has seemed to be convalescing at the Phoenix hospital, has had a relapse and will return to Phoenix on Tuesday for further treatment.

Dr. Hart of Ray is in charge of the hospital in Hayden during the absence of Dr. Norman, who is in Phoenix under the care of Dr. Martin.

Mrs. Bartlett Carter and son have gone to Douglas. Mr. Carter went by way of Globe and will join his wife in Douglas where they will locate.

The doctors received the freedom of the town when they arrived on the excursion on Saturday. The gay uniforms, red lights and especially the bells and drums have given crowds of children stories to tell for months. The more than sixty men who marched in chains were taken to Pythian hall and as many of them did not work next day. We suppose they received the treatment due them.

Miss Marinda Fellows, formerly of Hayden, was married a few days since to John Alfred McDonald, of Casa Grande. Miss Fellows lived with her sister, Mrs. C. C. McDonald, of Casa Grande.

Roscoe Burnett, of Kevin, visited his family in Hayden several days last week.

The Sunday school hour and the regular morning service will be dedicated to a program for Children's day at the M. E. church on next Sunday morning. An interesting program will be given.

Mrs. Frank Fry is giving an afternoon tea in honor of Mrs. Jack Williams, who leaves soon for the east and also for Mrs. Miller, mother of Mrs. Fry.

C. L. Huey has resigned his position at the Knight Thompson store and left Hayden on Saturday's train with his wife and son.

Miss Maxine Louisa is visiting the family of W. E. Phillips. E. Kamm and E. F. Kellner came over from Superior with R. E. Jones in the Jones automobile on a business trip the middle of last week.

Miss Anna Brandenburg, who taught successfully in the Hayden schools the past two years, is said to have been complimented by the offer of a school by the school board of Winkelman, her home town.

The Winkelman school board has also decided that as the world is composed of men and women it is better to have at least one man in their corps of teachers. He will be principal of the school the coming year.

The Teatro Nacional has set aside Monday evening June 1 as amateur night. Cash prizes will be given and as several of Hayden's residents make some pretensions to histrionic ability—we presume there will be several contestants.

Louis Prukket who came to Hayden a couple of years ago, died a few days ago soon after being taken to the hospital. He had been suffering from a slight attack of bronchitis which took a sudden acute form, probably. The authorities have not been able as yet to communicate with his family. His wife is in Germany and probably other relatives in St. Louis, Prukket's former home.

Joe and Ed Scherer are building themselves a new house. On Friday evening when Peter Chalmers returned from work he found his dinner table laid for a half dozen guests whom his wife had invited to celebrate Mr. Chalmers' birthday anniversary. Those who did full justice to an excellent, well-served dinner besides the host and hostess, were Mrs. S. J. Porter and daughter Bernice, Mrs. Tom Whittle and son Tom, and Messrs. Joe Kerr and W. Crane. Those calling during the evening to offer congratulations were Mr. Hugh and Wm. Walker and Mrs. C. M. Franz and Mrs. Stewart. Songs and recitations were

Chandler News Notes

The Republican's special edition Sunday was received with considerable interest in Chandler and was the occasion for much pleased comment. It is easily recognized as one of the best booster editions ever gotten out in the valley. The articles by Dr. A. J. Chandler, Will H. Robinson and G. T. Peabody, local men, were much appreciated. The demand for extra copies here has been brisk and many are being sent to friends in different parts of the country.

CARL HAYDEN HERE

Hon. Carl Hayden and Mr. Van Riter of Tempe were Chandler visitors last Friday. This was Mr. Hayden's first visit here in some time and he was naturally surprised at the growth of the Chandler district. Mr. Van Riter has secured a government contract for 2750 tons of alfalfa and was looking around for first class hay at prices above the market.

100 POUNDS OF FISH

E. B. Pierpoint and his two sons, Norval and Floyd returned Sunday from a fishing trip to Granite Reef dam. They brought back 100 pounds of fish, some weighing four and five pounds, and everyone in town had a taste.

READY FOR THRESHING

The Chandler Grain and Seed Co. has secured a small threshing outfit for use in this district on the smaller acreages. In the past the expense of hiring ten and twenty acres of grain by hiring the big machines has been heavy owing to long hauls etc. The thresher now in use will remain in Chandler permanently and will effect a big saving to ranchers with small fields. Considerable grain is now being cut in this vicinity.

A SMALL FIRE

What threatened to be a serious conflagration was nipped in the bud by the prompt work of local citizens Monday when a shed in the rear of the Lukin store caught fire. In three minutes it was a roaring furnace and had communicated to the galvanized warehouse adjoining. A bucket brigade did effective work until a stream of water was turned on the blaze. The loss was about \$200.

Geo. Armstrong has gone to Phoenix where he has accepted a fine position.

Richard Singleton returned Sunday from a motorcycle trip to Northern Arizona.

Rev. and Mrs. C. L. York celebrated their joint birthday anniversaries, both having a birthday on the same date.

A. N. Smith, the Mesa undertaker, was a Chandler visitor this week.

Mr. and Mrs. M. P. Freeman were Phoenix visitors Saturday.

Mr. and Mrs. E. W. Monroe were the motor guests of Mr. and Mrs. J. L. Eutrekkin Saturday in a trip to Phoenix.

L. H. Morrisson was a Phoenix business visitor several days ago.

Mr. and Mrs. E. J. Koch spent the afternoon in Phoenix Monday on business and pleasure.

Joe R. Loftus left yesterday on a business trip to Chicago.

Attorney Arthur E. Price was in Phoenix Wednesday on legal business.

S. V. R. Malcolin and daughter, of Phoenix, returned to Chandler Sunday for a short visit with friends.

given during the evening after which cream, cake and grape juice were served. The remainder of the evening was spent in conversation and card games. Mr. and Mrs. Chalmers were married nearly four years ago, and that anniversary also was celebrated on Friday evening. All unite in wishing the happy couple many returns of both anniversaries.

The ball game on Sunday evening was not very well played. The Ray Con team will practice faithfully until they know each other's work. The smelter team is better balanced at present and has played together longer.

TEMPE NEWS NOTES**BIG TIMES FOR THE CATTLEMEN**

Long Drives of Range Stock to Valley End This Week—Chilson Bros. Arrive Today with 1,100 Feeders—Other Bunches Follow.

Nearly four thousand head of cattle, representing the pick of the ranges about the Tonto Basin, Pinal Creek and Sunflower country, will arrive in Tempe within the course of the next few days or shipment to various outside markets. This evening alone will mark a record for the local stockyards, for a bunch of eleven hundred from the Chilson Brothers range, and several smaller herds will be retained in the big corral over night to wait shipment on a special stock train. On the road between Tempe and Sunflower there are today about a half dozen bunches of the range feeders that are slowly wending their way to the valley. Hughes and Robbins, are two separate herds of about three hundred head each on the road. Barkedoll and Brown, Geo. Felton, Broody and Creswell, Brunson, and the Three-Bar company, each have special bunches of the cattle on the way into the valley, that will aggregate several thousand head. Most of the outfits are heading direct for Tempe where the stock will be placed on feed or shipped.

Of the eight or ten outfits that are making the trip down from the hills, the Chilson Brothers will likely arrive first this morning with a bunch of about eleven hundred stock. The stock were pastured northwest of here last night, and a bright early start will be made this morning for the last few miles of a drive that has extended over several hundred miles and this started from the heart of the range just a few days ago.

Most of the stock coming into the valley have been purchased by Deagan Brothers of Denver, and will be shipped at once either to their Denver headquarters or to some of the northern states for feeding.

CIVILIZATION ONCE AGAIN

It was a happy day yesterday for nineteen cowboys who accompanied the Chilson Brothers cattle down the range. The following day a town in the early afternoon and there was a general stocking up of shaves and haircuts, and wearing apparel from the clothing stores, that made the boys feel quite human-like again after their winter months in the saddle.

The long drive with the big bunch of cattle to the valley today they bring the stock into town for loading and then they are off duty to enjoy the valley's best good times. On the trip down from the range there have been several fatalities that made the drive quite eventful. First the cook was run over by a wagon and suffered several broken bones. Then day before yesterday when the crew was camped along the Arizona canal, some daring and eventual wading among several of the boys nearly caused a drowning. An attempt was made to swim a horse across the wide and deep expanse of water in the canal and directly in the middle thereof was unfortunate enough to lose his leg in the saddle. Unable to swim he went down several times, and it was only after several thrilling attempts that he was eventually rescued by one of his fellow cowboys.

AFTERNOON AT HOME

Miss Mattie York and Miss Emma French, pleasantly entertained Monday afternoon at their home on South Van Ness Avenue in honor of Miss Gertrude York, who leaves soon for California. She will spend the winter term next year in Berkeley. The farewell party in her honor was attended from two to three by her young lady students of Tempe high school during the recent term. The hour from three to four was enjoyed by the elder ladies and from four to five the lady teachers of the high and grammar school were present. Each hour was a pleasant one and greatly enjoyed by every guest.

FIREMEN WILL PICNIC

There are some big plans under way for a firemen's picnic involving the presence of every fireman of the valley, that have aroused the enthusiasm of the local firemen sufficiently to call a meeting of their fraternity for this evening at the city hall. The notice comes that a picnic for all the firemen of the valley towns will be held at the Granite Reef dam on the sixth of next month. The local fellows are in for just that and to make sure that nothing will be overlooked, a special meeting has been called for this evening. Eight o'clock is the hour and every enrolled or volunteer fireman of Tempe is urged to be present.

MESA NEWS NOTES**GOVERNMENT JUNK GOING**

C. Schwartz, representing P. Schector of San Francisco, who recently bought at auction from the government its old machinery, dynamos, junk etc., formerly used in and about the construction of the Roosevelt dam, reports that he will soon have the same all shipped to San Francisco. He has been working several men for a month loading this on the cars and it will take four or five days longer. As soon as he completes this he will go to Los Angeles and San Francisco. His concern will work over and repair some of this stuff and remark it.

TONTO OIL FIELD

Accomplete oil drilling rig is reported by Dr. Snyder as having been shipped from Clarkdale last Friday for the Miami Oil and Development company and which will be hauled from Phoenix through Mesa in the next few days on its way to the holdings of said company located in the Tonto basin. Dr. Snyder says this rig will be used to put a sure enough hole in the ground in the Tonto basin, in a search for oil, and that actual drilling will begin soon.
